GAME MODES

At the Title screen, press the **Start** button to display the Game Mode menu. Use the **Directional buttons** to choose a mode, and press the **Start** button or the X button. Player 2 can join in by pressing the **Start** button on controller 2.

Battle – 1 or 2 players. Choose your main character and support character. You can continue as many times as you want, even if you lose.

Versus – 2 player competition. Select characters, then adjust handicaps and select a stage. When VS MODE HANDICAP is set to AUTO in Option mode, handicaps will be adjusted automatically after each match. **You must have two controllers connected to play Versus mode.**

Training – 1 player. Practice your moves and combos. Choose your main character, support character, and an opponent. Press the **Start** button while practicing to display the Training menu.

Hero Battle – Control a Marvel Super Heroes or Street Fighter team to fight a CPU-controlled Street Fighter or Marvel Super Heroes team. If you win a match, you will fight the next opponents. If you lose, choose another two characters from your team. Beat

all characters on the opposing team to win. The game ends when you win, or all your characters are defeated.

Cross Over (Special Exclusive Tag-Team Mode) – Allows you to choose your main character while the CPU selects your teammate. Throughout this mode, you fight a true tag-team match against identical CPU opponents. This mode gives you the ability to switch between both characters during battle.

Option – Adjust various game settings (see page 7).

Gallery – Check out artwork from the game, and see the victory endings of characters you've won with in Battle mode.

RULES

Match – The first player to win two out of three rounds wins the match. (You can change the number of winning rounds in Option mode; see page 7.) If time runs out before either player wins, the fighter with the most vitality left is declared the winner.

Win Mark – When you win a round, a Win Mark appears under your fighter's vitality gauge.

Draw Game – A draw game is declared when both players' Vitality gauges drain out at the same time (double K.O.), or both players have the same amount of vitality remaining when time runs out.

GAME SCREEN DISPLAY

Time Counter – Shows the time left. When time reaches 0, the match is decided by the remaining vitality of both teams. You can turn the time counter ON or OFF in Option mode (see page 7).

Score / Wins – Your current score (in 1 player games) or number of wins (in 2 player games).

Vitality Gauge – The color bar decreases as a fighter takes damage. Try not to take damage for a short while, and your character's vitality will gradually recover. If vitality reaches 0, the character is knocked out (K.O.).

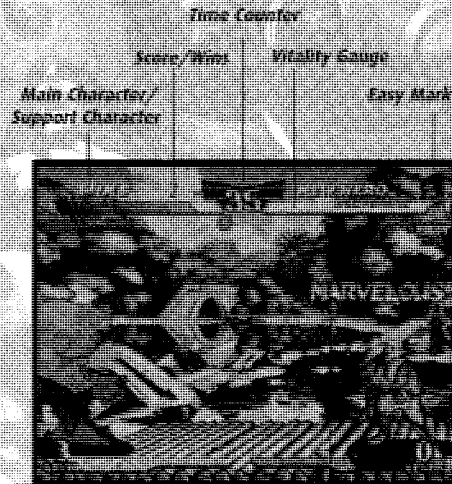

Main Character / Support Character – Names of the main and support characters chosen for the match.

Easy Mark – Displays "EASY" mode and/or "BEGINNER" mode when used (see page 6).

Hyper Combo Gauge – The color in the gauge builds up as you attack. When it is full, your character will be able to use powerful moves (see page 6).

Dizziness Gauge – The color builds up as a character takes damage. When it is full, the character becomes dizzy for a short time.

Bonus Message – Appears when you perform a super move, such as an Aerial Dive.

HYPER COMBO

A Hyper Combo is a Directional button move plus two punches or kicks simultaneously (see each character's Hyper Combos on pages 14-22). Hyper Combos deliver extreme damage to opponents. A Hyper Combo uses one Hyper Combo gauge.

HYPER COMBO GAUGE

The Hyper Combo gauge builds up power with each regular attack. When it is full, you can perform Hyper Combos and other special moves. You can store the gauge up to level 3.

HYPER COMBO SERIES

When your attack hits an opponent, perform a Hyper Combo quickly to turn it into a successive attack. You can also connect one Hyper Combo to another as a successive move.

VITALITY RECOVERY

When you take damage, your Vitality gauge drains. If you defend yourself and do not take damage for a short while, the Vitality gauge will gradually recover.

VARIABLE HERO BATTLE

Before starting a game, you'll choose two fighters from 17 available characters (eight Marvel Super Heroes and nine Street Fighters). The first hero you choose is your main character, and the second is your support character. During a battle, you can call out your support character by performing the various moves shown on this page.
